Call to discuss in-home care for your client.
Call, fax, or email us using the contact information above.
Office hours Mon–Fri, 8 AM–5 PM

What ITN does and doesn't do

We provide in-home personal care (non-medical) with bilingual English/Japanese caregivers, on a prearranged schedule. **We don't** provide transportation (caregivers may accompany a client but may not drive), and our caregivers do not accept gifts. All personal care aides are insured, background-checked, and receive regular on-site supervision.

Clients who may be a fit

- Needing companionship, light housekeeping, meals or errands rather than hands-on care (Level 1)
- Going home and needing hands-on help with daily activities: feeding, walking, transfers, toileting, grooming (Level 2)
- Japanese-speaking clients or families who prefer a Japanese-speaking caregiver

Levels of care and minimum visit

Level 1: Companion / chore. Companionship and conversation, medication reminders, light housekeeping, laundry, dishes, bed making, and community access (shopping, appointments or outings; assist only, no driving).

Level 2: Personal care (includes Level 1 help). Feeding, walking, transfers, toileting, grooming, medication reminders, range-of-motion exercises, meal preparation, and attention to the client's safety.

Minimum visit length: Two (2) hours.

Rates and payment

All services are private pay only. We do not accept insurance or Medicare/Medicaid payments. Rates depend on the level of care and visit length; please call for current rates and availability.

How to refer

1. **Call, fax or email** us at the numbers above with the information below. The ITN office responds and sends intake forms by mail, email or fax; the client's Information Sheet has a "Referred by" line for your name and number.
2. **In-home assessment** by an ITN Care Coordinator (an assessment fee applies). The level of care is determined at the assessment visit, and medical records are collected as part of this step. Care begins once caregivers are matched to the client's schedule and needs.

What to send with a referral

☐ Your name and contact number
☐ Client's name, age, birthdate, address and phone
☐ Guardian, primary caregiver and emergency contact, with relationship and phone
☐ Primary physician and pharmacy, with contact numbers
☐ Services requested
